

APACC 2024

ASIA-PACIFIC AIDS
& CO-INFECTIONS
CONFERENCE

HYBRID CONFERENCE
HONG KONG
27 - 29 JUNE 2024

ABOUT THE CONFERENCE

Over the years, enormous progress has been made in the fight against HIV and co-infections. Both academia and industry have contributed greatly to equipping the medical community with the best medications and expertise possible to optimally treat people living with HIV.

However, international platforms for scientific interchange are not always accessible to medical professionals worldwide due to budget and travel restrictions. Also, most major conferences do not usually address local and regional issues. In particular, the Asian medical community in this field of research currently has very few platforms that serve the needs of HIV healthcare professionals in this region.

In 2023, APACC attracted 479 attendees from 34 different countries, ensuring rich, lively conversation and knowledge sharing.

What Your Peers Say

“ An excellent conference to gain knowledge on the latest treatment, trends, and outcomes that all sub-populations of people living with HIV are going through. ”

“ Very interesting, region specific, with opportunity to discuss and network with prominent clinicians and researchers from the region. ”

“ This workshop is really amazing. Full of input and the contents really up to date. eye opening with different perspectives of view. A must join workshop to all HCW. ”

PROGRAM CHAIRS

Grace Chung-Yan Lui
MBChB (Hons), FHKCP,
FHKAM

The Chinese University of Hong
Kong,
Hong Kong

Reena Rajasuriar
MPharm, PhD

University of Malaya,
Malaysia

Joseph Tucker
MD, PhD, AM

UNC Chapel Hill,
United States

**Registration for APACC 2024
is Now Open!**

Join your peers at this hybrid meeting – either live in Hong Kong or online – from 27 to 29 June 2024.

CALL FOR ABSTRACTS

APACC provides a platform for investigators in the Asia-Pacific region to present their latest research and share their experiences in the field of HIV and co-infections!

APACC 2024 welcomes two types of abstracts:

- **“Lessons learned” abstracts:** What worked and what did not work? Share your experiences and exchange ideas with a multidisciplinary audience.
- **Research abstracts:** Present the latest results from your study or research and discuss the findings with an expert audience.

We accept encore and industry-submitted abstracts as long as the research is focused on the Asia-Pacific and has new data at the time of the conference.

Abstract submitters are strongly encouraged to use person-first language in their abstract.

Registration fees are waived for early-career professionals and regular delegates from resource-limited settings with an accepted abstract. A 50% discount is offered to early-career professionals and regular delegates from resource-limited settings without an accepted abstract.

Submit an abstract on your research in the following fields:

- Basic Science
- Clinical Science
- Prevention Science
- Implementation Science
- Co-Infections including Viral Hepatitis

Submit Your Abstract!

**Abstract Submission Deadline:
22 March 2024 at 23:59 HKT**
